Summary

Full-Stack Engineer based in Belgium — delivering scalable web
applications for startups, SMEs, and enterprises.

With 5+ years of experience building robust applications using
Node.js, TypeScript, React, Next.js, PHP/Laravel and AWS, I help
businesses go from idea → deployment → scale. My focus is not just
writing code, but delivering measurable business outcomes: faster
applications, secure APIs, and cloud infrastructure that supports
growth.

What I bring to your project:

Backend expertise: Node.js/NestJS, PHP, Python, FastAPI, OpenAI,
Agentic AI, authentication, payment integration.

Frontend excellence: Vue.js, React & Next.js for modern, SEO-
friendly, high-performance UIs.

Cloud & DevOps: AWS (EC2, S3, Lambda, RDS, CloudFront),
Docker, CI/CD pipelines.

Scalability & performance: Optimizing apps to handle thousands of
concurrent users.

End-to-end delivery: From MVPs for startups to enterprise-grade
solutions.
